A VARNISHED FLOOR

It is not only beautiful and durable, but it is a great labor saver as it is so easily wiped up. Our floor varnishes dry hard, are water proof and wear a long time. We carry a large line of paints, oils, varnishes, wax and stains, and guarantee them to be pure. Could you ask more?

Hendrickson's

WILL SERVE UNCLE SAM

Mr. Joshua Burgess Everett, who has been in the New York office of the National Conduit and Cable Co. for the past two years, writes that the U. S. Government has accepted the entire outfit of the munitions department of this company, and he has been appointed to serve during the war, as Assistant Superintendent in the Cartridge and Ammunition Plant. He leaves this week for Hastings, N. Y., to take up his new duties.

FUNERAL OF MRS. KING

The funeral of Mrs. Patrick H. King was held this morning at 9 o'clock in the St. Patrick Church. Burial was made in the Washington cemetery. The following out of town persons were present at the funeral: Mrs. J. H. Anderson of Ivondale, Ky., Mr. and Mrs. Thomas King of Dallas, Texas, Mr. E. A. Donovan and daughters of Chicago, Ill., and Mrs. Mary Mitchell of Lockland, Ohio.

ALUMNI MEETING

A meeting of the Alumni Association of the Maysville High School was held on Tuesday night by the president, Mr. John W. Mathews. All members of the Alumni are urged to attend as the annual election of officers will be held at this meeting.

DEATH CERTAIN

A NEW POLICY

Work like this, John Sample, age 35, pays \$29.16 per thousand, which will be reduced by 1917 dividends \$5.22, upon payment of second premium, making the net cost \$24.42. Policy will contain total and permanent disability benefits, which means, first, waiver of premium payments on policy during disability, and company will pay the insured \$100.00 per year while disabled, then the face of policy, \$1000.00, at death; disability means loss of eyesight, loss of both hands, loss of both legs, loss of one hand and foot, loss of mind, total loss of body power from paralysis or disease.

Paid \$105.00 for a Studebaker wagon 38 years ago

IN 1876 Mr. R. F. Dewey of Millersburg, Ind., bought a Studebaker farm wagon for \$105. Dividing \$105 by 38 years it will be seen that Mr. Dewey's Studebaker cost him—to date—\$2.77 a year.

—and, as the wagon is still giving good service, every additional year that Mr. Dewey uses his wagon still further reduces the cost per year.

You can't beat this for an investment.

We carry a line of Studebaker wagons just as strongly made, just as reliable, as the Studebaker wagon Mr. Dewey bought 38 years ago.

Come in and look them over. We will demonstrate to you that a Studebaker wagon is an investment that pays every time.

MIKE BROWN,
The Square Deal Man of Square Deal Square

PATRIOTISM!

Means Both Loyalty and Sacrifice

The time for showing your patriotism has arrived. The government needs your assistance. This war is the serious concern of every citizen. Do Your Part.

Our Government Needs Funds FOR WAR

The Nation's wealth must help the Nation's needs. Make up your mind to buy some of the war bonds the Government is preparing to issue. They will be perfectly safe and free of taxes.

Come in and see us about them. Our services are unreservedly at the command of the Government without charge, fee or commission of any kind.

We will get your government bonds with pleasure and without charge of any kind for our services.

When you help the Government you help yourself. Get some of the first issue.

MAYSVILLE BEATEN

By Somerset, Ky., Yesterday in the Sunday School Attendance of the City—Score 3117 to 2420.

Maysville suffered defeat at the hands of Somerset yesterday in the Go-to-Sunday-School Day contest between the Pulaski county city and the Masonians. Maysville's total attendance of the entire quota of schools was 2420, Somerset having 3117 the lead, or a total of 3117.

Maysville defeat can be attributed in the main to the bad condition of the weather yesterday, which was very cold and disagreeable for May. Many of the smaller children were kept home on this account, this necessitating that the parents stay at home also.

But there is proof conclusive that had the weather been more agreeable, Maysville would have made a much better showing with the Southern Kentucky town. The attendance in this city last year was 2488 in all of the schools, the decrease being only 68. Last year the conditions were much more favorable and only a few score more people attended than this year. Maysville would have made at least 3000.

Only four Sunday Schools in this city made a better showing than that of last year, the Forest Avenue M. E., the Central Presbyterian, the Scott M. E., and the Bethel Baptist, the latter two being colored churches. All of the other schools suffered great decreases.

The following were the attendances in the schools of Maysville this year together with the figures of last year:

	1917	1916
Christian	479	480
Baptist	365	469
Third Street M. E.	202	243
First M. E., South	224	255
First Presbyterian	167	181
Forest Avenue M. E.	182	100
Central Presbyterian	153	125
Second M. E., South	75	123
Mission	39	59
Apostolic Holiness	36	81
Episcopal	25	35
Scott M. E. (colored)	268	173
Bethel Baptist (colored) ..	205	167

Total

Practically all of the Sunday Schools in this city employed some means of advertising for the purpose of bringing as many as possible to their school. All report them as having been very successful.

Many of the leaders of the Sunday School movement in Maysville are feeling somewhat "blue" over the fact that Somerset, a smaller city than this by 2,000, was able to beat Maysville by such a large figure. President C. F. Nash, president of the City Sunday School Association sent a telegram to the Somerset leaders this morning congratulating them on their victory.

Well, we should try to beat them next year.

Gerbrich moved his Piano Store next door to Central Hotel. 7-2t

HELD EXAMINATION

Prof. H. G. Sluss of Covington and Superintendent J. W. Bradner of the Ashland Public Schools, former Superintendent of the Maysville Public Schools, were in this city Saturday conducting a teachers' examination. Mr. Bradner spent some time shaking hands with his many friends here.

NOTICE ALUMNI

The Alumni of Maysville High School together with the graduating class of 1917 are requested to meet at the High School Tuesday night, May 8, at 7:45, for the annual election of officers.

JOHN W. MATHEWS, President.

MARRIED HERE

Marriage license was granted by County Court Clerk J. J. Owens to Clarence H. Fearin, 20, and Miss Ella Poynter, 18, of Wallingford, Fleming county, and they were married a few moments later by County Judge W. H. Rice.

IS ADMINISTRATOR

In the Mason Circuit Court on Saturday R. L. Cooper was appointed administrator of the estate of William Ruark, deceased and qualified as such with C. T. Moore as surety.

The many friends of Mr. and Mrs. Thomas H. Gray will very much regret to learn that they have decided to make their home in Covington, Ky., for which city they leave today. The change was found necessary owing to Mr. Gray's connection with the Lovell & Humington Company. Our good wishes go with them to their new home.

Squire Fred W. Bauer fined William Mitchell and J. W. Scott \$5.15 apiece on Saturday for drunkenness.

MEN SENTENCED

In the Mason Circuit Court on Saturday Lee Price, Wesley Osborne and William Breckenridge were sentenced to terms in the penitentiary by Judge Newell of one year, six years and from five to fifteen years respectively. These men have all been tried during the recent term of court. They were taken to Frankfort this morning by the sheriff.

Wesley Osborne, one of the men sentenced, whose crime was arson, produced a motion for a new trial in the court on Saturday which was overruled by Judge Newell. He then asked for an appeal to the Court of Appeals which was granted. He, however, was taken to Frankfort to start serving his term in case the higher tribunal should see fit to affirm the local court.

The famous hog pen case of M. C. Hutchison, which was appealed by him, the action being styled M. C. Hutchison against the City of Maysville, was held over until the September term of the Circuit Court. This was done on account of the Sanitary Survey it was thought that this would do away with necessity of hearing the case.

JOINED MARINE CORPS

Mr. Harvey Rice, son of County Judge W. H. Rice, an employee of the J. C. Everett & Co., and Mr. Henry Pogue, Jr., manager of the H. E. Pogue Distillery Co., joined the United States Marines on Saturday. Maysville young men seem to have a preference for the Marines, many of them joining this branch.

Mr. Douglas Newell has received an appointment in the officer's corps and will leave in a few days for Fort Benjamin Harrison, Ind., to undergo training. He is the oldest son of Circuit Judge C. D. Newell.

RECRUITING PARTY HERE

First Class Engineer E. Bailey and First Water Tender Engineer, recruiting officers of the United States Navy, are in this city, having arrived on Saturday morning. They are making their headquarters at the Postoffice building and will be pleased to see all young men desiring to enlist in that branch of service. From here they will go to Vanceburg.

SPEAKING DATE CHANGED

The date for the speech of Mrs. South has been changed from Thursday of this week to Wednesday. She will speak in the Mason County Woman's Club building at 7:30 o'clock p. m. All are invited to be present.

Mrs. South is a well known woman on club work, especially in civic and child welfare and suffrage work. She is now state president of Suffrage work. She is a gifted speaker, inheriting it from her illustrious father, Governor William O. Bradley.

CHANSOR PROPERTY SOLD

The beautiful Chanslor residence at the corner of Second and Lexington streets was sold Saturday by Messrs. Thos. L. Swan & Co., to Mr. Pickett Bouldin of the county, who will take possession at once. This home is complete in every detail and one of the most desirable in the city. Terms private.

SANTA'S PRIVATE DOOR

An extraordinary feature picture will be shown at the Pastime today, when two of America's most popular screen stars, Mary Charleston and Webster Campbell will appear in "Santa's Private Door." This is a great dramatic photoplay, one that will hold your interest from start to finish.

REPORTED BIG SUM OF MONEY FOUND

It was reported in this city on Saturday that some men, in tearing a building down at Orangeburg on Friday afternoon, found \$6,000 in gold money, many of the coins being old and very valuable. Investigations proved that the report was unfounded. The days of pirate treasure and hidden hoard have about passed.

ADVANTAGES OF THE SELECTIVE DRAFT

The average citizen, when he has opportunity to fully consider the principle features of the "selective draft" method of organizing an army, will recognize its merits, although many may have cause to feel its hardships when called upon to surrender a relative to the service of his country.

America, adopting the selective draft, is merely profiting by the mistake which Great Britain made at the beginning of the war. In the early days of the conflict England hurriedly raised an army to send against Germany in Belgium. Men of all trades and professions flocked to arms, were hastily drilled and equipped and sent to the front. The slackers, the shirkers, in thousands and thousands of cases men who could well have been spared, remained behind, unwilling or refusing to volunteer.

The first army never returned, except in badly broken fragments. Skilled engineers, trained munition makers, useful farm workers, sacrificed their lives in battle, while the untrained and indifferent survived, consuming food and yet incapable of helping in any capacity until after an expensive apprenticeship.

After the results of this first great mistake had become apparent to the statesmen of Great Britain, they were confronted by the necessity of not only drilling additional great armies to send to France, but of training artisans and engineers to take the place, in the munition factories, etc., of the skilled workers who had rushed to the front as volunteers at the first call of arms.

The United States, in raising the army soon to be assembled, will endeavor to avoid a similar error. All men of military age will be enrolled as available for service. As they are needed, names will be drawn from the list and each one subjected to close examination. Those individuals who have families dependent upon them will be exempted. Next in order of exemption will be men especially trained for necessary duty at home while the army is fighting—engineers, skilled mechanics in certain trades, capable farm workers, etc. The man of no visible occupation, regardless of his rank or station, will be compelled to give mighty good reason why he should not take his place on the firing line.

The selective draft is also the most economical method of raising an army. By first selecting men who have no families or relatives dependent upon them, the government will not be compelled to provide for the support of those at home while their men are fighting, and at the close of the war a huge pension appropriation will not have to be made to take care of the widows and orphans or mothers of men killed in battle.

All hope there will be no battle and that the terrors of the draft, as they are seen by many, will not materialize, even in their mildest form, but under the circumstances as they now exist our country can take no chances, and every citizen, every home, every business house must calmly and bravely prepare to stand a share of the burden to come, whatever they may be.

THE REPLY

Several days ago the Portsmouth Times published a little editorial about Willynn Fields which is as follows, the reply of Editor Littlejohn following:

The Hon. W. J. Fields, of the Ninth Kentucky congressional district, may be reflecting the sentiment of his district in his opposition to raising an American army to defend American rights, but we doubt it. Kentucky has the reputation of being a state of fighters, not of mollycoddles and we are wondering if the Ninth district is the exception that proves the rule. For further information we await explanation from the Hon. John D. Littlejohn, editor of the Wellston Sentinel, whom we recall, used to dilate at some length upon the glories of his native heath in the rifle and knife line.—Portsmouth Times.

In reply the Wellston man says:

"Thus Taylor kicks us on. We refer him to Saturday's editorial page of the Daily Sentinel. Now, to extend the matter further we might, as the door is now open say what a fellow really thinks if it is not reasonable, that the congressman of the Ninth Kentucky is but a child of chance, the same as a certain gentleman who stopped the mills at Portsmouth and the same sort of a publicist as the steamed unburned haired fox of the immortal Tenth who surreptitiously sidestepped the armor plant issue and recorded himself on the side of the enemy. This is the same fellow who gave the cannons to Ironton when you folks in Portsmouth had already constructed at great cost the emplacements for them on the flood wall.

"The native heath is there across the Beautiful River, a most inspiring scene, also many good and God-fearing people—a province aside by itself but in the Union—a land of warm hearted folks the latchstring of whose happy homes hangs on the outer door to which there is no key; a land where the sun shines continually with the warmth of refulgent rays on the stranger within and the native who alike is a visitor to his neighbor's gate; a land for farms and fields, for suns and skies, for flocks and herds, for steeds and sires and magnificent and cultured men and beautiful women than which their is no equal; a land of feuds handed down by heritage, living much yet lovingly to the things of the past instead of looking to the sunlight of a beckoning future; a land which the people of earth desire to visit and feel better by having done so, yes, the land of my birth, to which I reverently turn in homage because there my people live, the friends of my youth are there or their memories still exist; there is a little lot on the hill back of town where mine and loved ones have lain down to await the great awakening and there when I grow tired and lag along the way I desire to be put aside—yes, I love that state notwithstanding its dirty politics, its disposition to elect disloyals and counterlands and sons of disloyals to represent it in the halls of congress, or any other shortcoming which it may have or may acquire in the evolution of time—it is my state, knives and pistols and all. May it live forever."

A living skeleton has a slim chance of getting stont.

Invisible patches should be used in fixing up quarrels.

VAST HOME ARMY, PLAN; GREAT NATIONAL SERVICE RESERVE TO BE COMPOSED OF MEN OUTSIDE DRAFT LIMITS AND WOMEN

Washington, May 3.—Plans for a great national service reserve made up of men not subject to draft into the army and of women, already approved by the War Department, were submitted to the Council of National Defense today at a conference of the council with state governors and representatives of state defense councils.

Members of the reserve would be available for any service they could perform for the government.

The plans were presented by George Wharton Pepper, a representative of the Pennsylvania State Defense Council and chairman of a National committee of patriotic and defense societies.

The reserve would be headed by a board of nine nationally known men, which would operate through a national committee of members from all the states. Under the national committee there would be state and district committees and in Washington a permanent headquarters committee would carry on administrative work.

Taft Heads Membership

Membership on the board of nine has been tentatively accepted, it was stated, by former President Taft, Major General George W. Goethals and Henry L. Stimson, former Secretary of War.

The purpose of the organization, as outlined to the defense council, would be to furnish any military or civil service which could not be performed by enlisted men, to aid in recruiting, to work under any private employer engaged on government contracts or on farms and to supply the army and navy. When not in active service, reserve members could aid in home defense. They would be given compensation for the time spent in government service.

The defense council today gave the governors and state representatives an outline of a program for state assistance to the federal government in the conduct of the war. They were told that state defense councils could educate the people to the magnitude of the task ahead; aid in recruiting the national guard; assist in carrying out the enrollment for the new army and in determining exemptions from draft; maintain labor standards; establish labor clearing houses; assist in getting workers to use their "broken time" on the farm; assist in getting idle men and boys to the farm; afford facilities in aiding the government to collect revenues; help float the Liberty loan; organize central food production committees to work with the state defense council; supply their own food requirements wherever possible; and reduce waste in the home.

Older Men For Offices

The state councils were asked to induce older and more responsible men to enter military training camps, as a sign going to the first camps probably will be advanced in grades in the near future.

Members of the federal council's organization outlined at length to the governors steps the government is taking to put the country in a state of preparedness. Daniel Willard, chairman of the committee on transportation, described the work of the general railroad board which is now operating the country's railroad lines as one continental system. Howard Coffin, chairman of the committee on munitions, told of efforts to find facilities for an adequate supply of guns and ammunition.

Director Gifford of the Council and George C. Porter, who heads the division on state organizations, outlined the Council's organization. Dr. Anna Howard Shaw, chairman of the Woman's Defense Committee, told what women hoped to do in the war.

Business Men Praised

The Council's munition board, Director Gifford said, is doing the work of a government department and in effect is a ministry of munitions. Every order for the army or navy is advised by this board before approved by the Department. A commercial economy board is studying earning systems in the hope that it will be able to eliminate duplications of effort. A coal committee is taking up the entire question of the fuel supply.

Secretary Redfield, a member of the council, described the work of his department and praised the business men, whom he said are offering their services free to the government. Dr. Franklin Martin of the Council's advisory commission, and Surgeon General Rucker of the Public Health Service, discussed military and civilian health problems. George Creel, of the government's publicity bureau, urged that the people be informed of what is transpiring in government and state circles. A paper by Samuel Compers was read, advising that no change be made in present labor standards during the war.

Keep the little ones healthy and happy. Their tender, sensitive bodies require a gentle, healing, harmless remedy in the Spring. Hollister's Rocky Mountain Tea is a safe tonic remedy, thorough but not injurious. 35c. J. J. Wood & Son.

WILL NOTIFY APPLICANTS FOR OFFICERS RESERVE

Many applicants for officers' reserve corps who have been preliminarily accepted have been anxiously awaiting notice of actual selection. Some civilians appear to have misunderstood the instructions, believing that the approval of their fitness guaranteed final selection. Accordingly Colonel Heston issued an order containing various instructions, and among them the following:

3. The fact that you have been reported as suitable by the board which examined you and have been given the duplicate copy of application cards does not authorize you to enter the camp. As noted under directions on the back of the card which you were instructed to "read" and "follow", the "camp commander will select and notify 2,500 men for each camp" to attend. More than the fortunate 2,500 may be certified as suitable by the boards which examine them; but of these only 2,500 may attend. The camp commander will send to each one of these 2,500, except members of the Engineer Company, a postal card, instructing him to report. Upon receipt of this postal card the candidate will start for the camp.

CANADA AND U. S. TO JOIN IN FIXING WHEAT PRICE

Ottawa, May 3.—Announcement was made in Parliament today by Sir Thomas White, the Minister of Finance, that plans are under way for joint action by Canada and the United States to reduce the price of wheat.

Sir Thomas said the price of flour, wheat or any other necessity could not be regulated by the Canadian government alone. To be successful the regulation of food prices must be the simultaneous action of the United States and Canada, he declared.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in 100% of cases and that is catarrh. Catarrh is a great influence by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. AGED WOMAN

Run Down and Feeble—Made Strong By Vinol.

So many people in Maysville and vicinity are in Mrs. Wickersham's condition we ask you to call at our store and get a bottle of Vinol, and if it fails to benefit we will return your money.

In her eighty-second year Mrs. John Wickersham, of Russellville, Pa., says: "I was in a run-down, feeble condition and had lost flesh. A neighbor asked me to try Vinol, and after taking two bottles my strength returned; I am gaining in flesh, I have built up my health and I am feeling fine for a woman of my age, so I get around and do my housework."

The reason Vinol was so successful in Mrs. Wickersham's case was because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened run-down system and create strength.

Right here in Maysville we have seen such excellent results from Vinol that it is a pleasure to know it is doing so much good for old people in other parts of the country. J. C. Pecor Drug Co., Maysville, Ky. Also at leading drug store in all Kentucky towns.

CRISIS PAST IN RUSSIA—COUNCIL OF WORKMEN AND SOLDIERS ACCEPT EXPLANATION OF GOVERNMENT'S MAY DAY NOTE

Petrograd, via London, May 5, 5:52 a. m.—The council of workmen and soldiers' delegates has accepted the government's explanation of its May Day note by a vote of 34 to 19 and has decided that the incident is closed. The anti-government street demonstration was completely swamped by a gigantic pro-government demonstration on Friday. There were some clashes but no serious incidents.

TO AILING WOMEN
A Little Sound Advice Will Help Many a Sufferer in Maysville

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

OPERATING REFORMS ON RAIL LINES DEMANDED

Washington, May 4—An appeal to the railroads to "show what they can do for their country" by instituting operating reforms and economies during the war, was issued tonight by the National Defense Council's general railroad board.

Definite recommendations were made in the statement including longer locomotive runs, heavier loading of cars, quicker handling at terminals, reduction of idle time, and local meetings among railroad employees and officials to impress upon every railroad

man the necessity of doing his full patriotic duty.

Already the roads of the country are operating as a unit in the interest of national defense and the detailed recommendations of the board worked out after exhaustive conferences, from the program by which the administration expects to bring to a basis of war efficiency every portion of the 262,000 miles of road which make up the greatest national transportation system in the world.

But a woman's missing sense of humor has saved many a wise man from making a fool of himself.

Power in Council
Petrograd, May 3, via London, May 5, 1:45 a. m. Denied. Although the sentiment of the workmen and soldiers' council tonight apparently is against extreme measures, unless they are absolutely necessary, every speaker at the meeting emphasized the contention that the power in Russia rests in the hands of the representatives of the workmen and soldiers, and that they are determined to enforce their views upon the temporary government or immediately dispose of it and construct a government of their own liking.

City in Turmoil
Petrograd, May 4, 6:50 p. m. via London, May 5, 6:44 a. m.—A clash between rival parties has occurred in the Nevsky Prospect in which a number of shots were fired. An officer and a girl are reported killed and several persons wounded. The city is in a turmoil of excitement.

BUTTON WORKERS GO TO STEEL PLANT
Manchester, May 3—Thirty-five button-cutters left the local factory this morning for the Portsmouth steel mill. The average weekly wage of the button cutter is more than \$12. \$18 a week is promised them at the steel mill. The payroll of the button factory has been more than \$1000 a week for a number of years. An effort will be made to replace the men at once.

Ford
THE UNIVERSAL CAR
320,817

Have been built and actually delivered to retail buyers since August 1, 1916. These figures—320,817—represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agents to retail buyers. This unusual fall and winter demand for Ford cars makes it necessary for us to confine the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather to permit any agent to stock cars in anticipation of later spring sales. We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now. Immediate orders will have prompt attention. Delay in buying at this time may cause you to wait several months. Enter your order today for immediate delivery with our authorized Ford agent listed below and don't be disappointed later on.

WILL BEGIN NEXT MONDAY

The Mason County Sanitary Survey Held Back on Account of U. S. Public Health Service Not Receiving Appropriation.

Work on the Mason County Health League Sanitary Survey of the county, which was to have been begun on May 1, will not begin until next Monday, Dr. A. T. McCormack of Bowling Green, a member of the State Board of Health announced on Saturday while in this city. The cause of the delay is attributed, like the high cost of living, to the war. The United States Public Health Service, which will conduct the survey, assisted by the State Board of Health and the Mason County Health League, has not as yet received the appropriation from Congress for the work, the war having held back their money.

The force of men to be here for conducting the work will be a large one. There will be four medical officers of the United States Public Health Service, several men from the Kentucky State Board of Health and six or eight local men. Miss Casey will also be active in the work.

The time required to make Mason county one of the three most healthy in the United States will take about a year. Six months will be required for the first stage and the remainder of the time will be spent in examinations among the school children.

Dr. McCormack in an interview with the Ledger man said that the advertising Mason county would receive from the campaign would be enormous. He said that the surgeon general of the United States Public Health Service has told him that since this county was so anxious to get the work done and since all of the contributions had been voluntary, as soon as the survey was over he would issue 1,000,000 bulletins concerning the healthy condition of this county and have them distributed wherever the English language is spoken. Thus Mason county's name would be placed before the entire English-speaking world as one of the most sanitary spots in this great nation.

Dr. McCormack informed us that a tractor and concrete mixer would be placed in the equipment of the survey force, the latter being used for the purpose of building toilets throughout the county. The owners of the property will pay for the materials used in building the toilets but the work will be done free.

LARGE MEN'S CLASS

The men's class at the Christian Church yesterday morning numbered 125. At the close of the service one of the men proposed that the class invite the men of the Baraca Class to a friendly contest for the greatest total attendance from next Sunday to and including the thirtieth of September, the defeated class to banquet the winner. The class acted favorably upon this suggestion and ordered the communion sent to the Baraca Class.

J. L. KIRKLAND DIES

TODAY

CONDUCTED FUNERAL

The Rev. A. F. Stahl, pastor of the Christian Church of this city, conducted the funeral of Mrs. Wilbur R. Shubert at Dover, Ky., yesterday afternoon. Mrs. Shubert had a very wide circle of friends. She was the daughter of Mr. and Mrs. J. F. Lewis of that place. Burial was made in
